

Harvest Festival

- On Monday the 7th October the pupils and teachers attended a service at the Church at Draycott in the Clay. The children led the service and provided lots of information about how to save the planet for future harvests.
- Class 1 planted fruit and vegetable seeds, Class 2 came up with some wonderful ideas to save the planet, illustrated them and read them in the service. They had ideas such as taking a shower rather than a bath, turning off the lights and closing doors to keep warmth in this winter. Class 3 illustrated a fabulous story written by Mrs Walker and read it in the service. It was all about how God had created the world and mankind and how mankind must in turn look after the planet.

The children also lead prayers during the service, sung our harvest songs and gave thanks to God for the harvest this year. The service ended with a special harvest message of thanks from Les Rees. The children had all brought lovely gifts to donate to the soup kitchen in Burton.

RECONCILING A WOUNDED PLANET

We were very honoured to be invited to take part in a national conference held at Coventry Cathedral. *'Reconciling a Wounded Planet'* was a two day conference where Christians came together to consider 'stories of hope' in the midst of the growing environmental crisis that the world is experiencing.

The pupils from our school wrote a story called Hope for our Earth which was sent to many schools nationwide and used on the 'schools day' to stimulate discussion and work around climate change and how we can help our planet. Please click on the link below to take you to the website where on the 'schools day' page you can see all the amazing work our children produced. These pieces of work were displayed at the conference for all to see!

We are continuing our work on climate change as we have chosen this as our focus at Harvest time this year. Last year at Harvest we looked at plastic and how it is destroying life in our oceans.

We hope you enjoy reading our story, Hope for our Earth and looking at the work we produced.
