

Subject Specific Vocabulary

head	the top part of a human or an animal's body
body	the whole of a human or animal, including the head, brain, heart, legs and arms
brain	the control centre of the body
pupil	the black spot in the middle of the eye that lets in light, colour and shapes
ear	the organs, or body parts, in humans and many other animals that allow them to hear
sound	vibrations, or sound waves, that we can hear
tongue	moving organ in the mouth that is used to talking, tasting, eating and licking
taste	the sense by which sweet, sour, bitter, or salty flavours are detected through taste buds in the tongue

Animals including humans – all about me

Links to the National Curriculum:

- identify, name, draw and label the basic parts of the human body and say which part of the body is associated with each sense

Working scientifically:

- identifying and classifying
- performing simple tests
- gathering and recording data to help in answering questions
- using their observations and ideas to suggest answers to questions

By the end of this topic I will...

- identify, name, draw and label the basic parts of the human body
- say which part of the body is associated with each sense
