Exploring Everyday Materials 2

By the end of this topic I will...

- build a structure strong enough to withstand wind
- build a waterproof structure
- understand the properties of glass and its uses
- understand that materials are used to create a variety of furniture
- explore a variety of fabrics and understand their different properties
- explain the uses of materials and why they are suitable

Links to the National Curriculum:

- distinguish between an object and a material from which it is made
- identify and name a variety of everyday materials, including wood, plastic, glass, metal, water and rock
- describe the simple properties of a variety of everyday materials
- compare and group together a variety of everyday materials on the basis of their properties

What do I already know?

- there are different materials including glass, plastic, wood and metal
- things are made from different materials
- there are materials that are best suited for their uses i.e. glass for a window, brick for a house
- materials have properties including strong, bendy, soft, hard
