

Subject Specific Vocabulary	
reproduce	to create young, offspring or babies
excrete	to get rid of unwanted substances from the body
respire	to breathe
habitat	the natural place where a living thing can survive
microhabitat	a small natural area where a living thing can survive, found within larger habitats
survive	to remain alive
producer	a plant at the start of a food chain
consumer	a living thing that eats other living things

Living things and their habitats

By the end of this topic I will...
<ul style="list-style-type: none"> compare the differences between things that are living, dead, and things which have never been alive
<ul style="list-style-type: none"> identify and name a variety of plants and animals in a microhabitat
<ul style="list-style-type: none"> design a suitable microhabitat where living things could survive
<ul style="list-style-type: none"> find out what animals eat to survive in their habitat
<ul style="list-style-type: none"> understand food chains
<ul style="list-style-type: none"> understand the journey food makes from the farm to the supermarket

Links to the National Curriculum:
<ul style="list-style-type: none"> explore and compare the differences between things that are living, dead, and things that have never been alive identify that most living things live in habitats to which they are suited and describe how different habitats provide for the basic needs of different kinds of animals and plants, and how they depend on each other identify and name a variety of plants and animals in their habitats, including micro-habitats describe how animals obtain their food from plants and other animals, using the idea of a simple food chain, and identify and name different sources of food

Working scientifically:
<ul style="list-style-type: none"> identifying and classifying observing closely, using simple equipment using information from a variety of sources to answer scientific questions asking simple questions and recognising that they can be answered in different ways gathering and recording data to help in answering questions using observations and ideas to suggest answers and questions sorting and grouping
